

FAQs – Rapid Airfield Damage Recovery

Last updated July 16, 2024

Should we respond to both opportunities or just the "Ground Anchor Alternatives" because our product takes more than two hours to cure to strength?

We encourage you to submit to both opportunities under this RFI. Additional submissions with information may be beneficial.

Is ERDC looking for a proposal on how the existing commercially available grouts perform based on a detailed experimental evaluation or can a new alternative grout material be proposed?

ERDC is seeking new commercially available grout materials that may meet its needs.
